

Short and Long Term Plan

Short-Term Plan

Curricular Aspects:

- Motivate staff to develop effective teaching plans.
- Update and enrich the syllabus with value-added and life skills courses.

Teaching, Learning, and Evaluation:

- Implement innovative teaching techniques.
- Enhance ICT integration for digital classrooms.

Infrastructure Development and Resource Mobilization:

- Equip classrooms with modern ICT facilities.
- Upgrade library facilities and provide remote access.

Research Development and Collaborations:

- Organize workshops and seminars to promote research culture.
- Establish research databases and encourage faculty publications.

Student Support:

- Implement bridge courses and remedial classes.
- Track student progress through regular assessments and feedback.

Inclusive Education:

- Promote girl education through specific initiatives.
- Ensure accessibility and inclusivity in all programs.

Extension Programs:

- Launch community engagement and outreach programs.
- Collaborate with local industries and organizations for practical exposure.

Green Practices:

- Plant more trees and maintain gardens.
- Optimize the use of renewable energy sources.

Quality Enhancement:

- Implement regular internal audits and feedback mechanisms.
- Organize training and development programs for faculty and staff.

Long-Term Plan

Curricular Aspects:

- Regularly revise curriculum to align with global standards and industry needs.
- Incorporate interdisciplinary and experiential learning components.

Teaching, Learning, and Evaluation:

- Develop a blended learning approach combining traditional and digital methods.
- Establish continuous evaluation systems to monitor student progress.

Infrastructure Development and Resource Mobilization:

- Expand infrastructure to include state-of-the-art classrooms and research centers.
- Secure additional funding and resources through partnerships.

Research Development and Collaborations:

- Foster national and international collaborations for research.
- Create dedicated research departments and full-time research positions.

Student Support:

- Develop comprehensive student support schemes including career counseling and mentoring.
- Enhance scholarship and financial aid programs.

Inclusive Education:

- Develop policies and programs to support students from diverse backgrounds.
- Foster an inclusive campus environment through awareness and training.

Extension Programs:

- Establish a dedicated extension activities department.
- Develop long-term community development projects and partnerships.

Green Practices:

- Develop a green campus with sustainable infrastructure.
- Integrate environmental sustainability into the curriculum and student projects.

Quality Enhancement:

- Achieve national and international accreditations.
