

### 7.1.7-The Institution goes for barrier free environment

The institution is committed to fostering an inclusive and accessible environment for all individuals, including persons with disabilities (Divyangjan). To ensure ease of access and mobility, the campus is equipped with ramps and lifts, enabling seamless movement to and from classrooms and other essential facilities. These features are thoughtfully designed to meet the needs of individuals with physical challenges.

Additionally, the institution has disability-friendly washrooms that are strategically located across the campus. These washrooms are well-equipped and include proper signage and display boards to enhance visibility and usability for differently-abled individuals. The aim is to create a space that prioritizes comfort, safety, and convenience.
