

7.1.9-Sensitization of students and employees of the Institution to the constitutional obligations: values, rights, duties and responsibilities of citizens

The institution places a strong emphasis on raising awareness among students and employees about their constitutional obligations, fostering a sense of responsibility, and instilling human values. This commitment is realized through a variety of activities and events that celebrate the essence of our cultural and national identity.

1. National Festivals

Observing Independence Day and Republic Day provides opportunities to reflect on the sacrifices made for the nation's freedom and the principles enshrined in the Constitution. These celebrations inspire patriotism, unity, and respect for democratic values.

2. Human Rights Awareness

Seminars, workshops, and discussions are organized to educate participants about their rights and responsibilities as citizens. These activities highlight the importance of upholding equality, justice, and dignity for all members of society.

3. Duties and Responsibilities

Programs are conducted to sensitize students and employees about their duties as citizens, including respecting national symbols, abiding by laws, and actively contributing to nation-building through civic engagement.

Through these initiatives, the institution strives to create a community that values constitutional principles, respects diversity, and contributes positively to society.
