ASHOKA EDUCATION FOUNDATION

STUDENT RESEARCH PROJECT SCHEME

June,2021
Ashoka Education Foundation Nashik
www.aef.edu.in

INTRODUCTION

Today the educational world is adopting research as a core part of its curriculum. Research would be something that would enhance the conceptual knowledge of a faculty as well as a student by giving them a practical connect that directly contributes towards the growth of the society. So, bringing research into teaching-learning methods has become the need of an hour. Having an in-depth analysis of the things can not only make learning fruitful but also enrich the knowledge in one's area of interest. Research is something that needs to be searched again and again. It's a never ending process, as knowledge has no limit.

The educational accreditation board NAAC, has laid down the 7 criteria out of which one is research. This way research is gaining more and more importance as it is leading the educational world to a real world of learning, where the student or a faculty can search for more and more hidden facts and add on to the new knowledge creation for the coming generations to work on. According to the NAAC, institutes need to integrate education and research in various disciplines to sustain as centres of academic excellence. Three units of Ashoka Education Foundation have accredited by NAAC. To comply with NAAC peer team recommendations from the first cycle in regards to student's research, AEF-HE initiated a constructive step towards designing "STUDENT RESEARCH PROJECT SCHEME (SRPS)". Through this initiative, students would be encouraged and promoted to take a lead for innovative research   project. This step will not only help to develop research culture among the students but will also be surely known as a distinct feature of the institutes under the umbrella of AEF-HE.

Research creates new knowledge, insights, and imparts excitement, vibrancy, and dynamism in educational process. Research culture and academic integrity need to be promoted amongst students. As a part of the quality mandate, Ashoka Education Foundation is proposing this scheme to instill research culture amongst the students under the guidance of faculties.

 SRPS will focus on solution-driven research by addressing the needs of local/ regional communities and possibly the national as well as international priorities.

Scope:

Research is an essential component of higher education which helps in search of truth, gain insights for creating new knowledge, imparts excitement and dynamism in educational process and facilitates intellectual growth. Defining its scope would be setting boundaries or limiting oneself for his research work. Hence, this SRPS with a multi - disciplinary approach would bring the students from different areas together with the common purpose of evolving new theories, methodologies and frameworks.

It would definitely create an appropriate research environment for the institutes of AEF-HE, its students and so for the faculties to equip and undertake the quality research and attain excellence. This will also promote an action-oriented research and high impact research among motivated faculties from diverse disciplines focusing on issues and problems having some social relevance. Further, it may help to create a network of eminent researchers in identified thrust areas.

Objectives:

1. To create awareness of research among the students
2. To make students well acquainted with importance and opportunities involved in the research work
3. To inculcate the research culture in institutes and among the students
4. To identify young talent, build capacity, promote innovation and support inter- disciplinary research in collaboration with faculties

Structure:

A) Core committee will be formed at the AEF-HE level which includes two members from each unit along with Director and Administrator of highereducation

Responsibilities of the core committee

1. To convey the information of the core committee meetings to the unit level committee.
2. To orient the faculties at the beginning of academic year.
3. To identify and recognize the project supervisors.
4. To review the identified list of projects and provide necessary instructions.
5. To conduct the meetings to take a review of the project progress.

6. To assist in organizing the workshop for the student participants.

7. To cooperate in carrying out for a smooth and successful execution of the overall program

8. To coordinate the overall conduction of final round

B) Unit level committee will be formed which includes all faculty members along with Director/Principal. Committee should include two student representatives selected by research cell.

Responsibilities of the Unit level Committee

1. To inform students about the program and encourage them to participate in their departmental projects

2. To identify the list of projects with the names of concerned guide teachers and the students working in the project

3. To organize the first-round evaluation to shortlist the students' projects and submit the list of the shortlisted projects for the final round (Ten project from each Dept)

4. To conduct the meetings to take a review of the project progress (Monthly)

5. To conduct orientation program for the students at the beginning of academic year

6. To conduct the need-based workshop for the student participants.

7. To provide necessary guidance to the student's participants

c) General suggestive points:

1. One project may have one or more students.
2. Every faculty should at least guide 2 Projects.

3. The final round projects will be examined by a panel of external experts.

4. The nature of prizes will be as follows:

   a) Prominent projects may be recommended for financial assistance as per the need, future scope and quality of the project with approval of the management.

   b) The selected projects may be recommended for 'Avishkar'-the research competition.

   c) The infrastructure and the other resources of the college can be utilized by the participants.

Unit wise break up of Project Participation:

Unit Name	Level	Course Name	No. of Expected Projects
ABS	PG Level	MBA	20
ACBCS	UG Level	BBA CA	15
ACBCS	UG Level	BBA, B.Com.	20
ACBCS	UG Level	B.Sc. (Comp. Sci.)	15
ACBCS	PG Level	M.Sc.	05
ACE	UG Level	BA B.Ed.	15
ACE	UG Level	B.Sc. B.Ed.	15
AICESR	UG Level	B.Ed.	20
Total Projects			125

Thrust areas of research under the scheme:

Following disciplines are included for support under scheme:

1. IT, Technology, Science

2. History, Archaeology and Anthropology, Philosophy

3. Psychology, Behavioral and Cognitive Sciences

4. Literature, Linguistics and Digital Humanities

5. Indology, Indian Languages, Indian Knowledge Systems

6. Liberal Arts, Cultural Studies, Religious Studies

7. Education, Continuing Education, Technology-enabled Education

8. Journalism and Mass Communication, Law

9. Management and Commerce

10. Environment and Sustainable Development

Prizes for Students:

	College Name	Dept	Prizes	Memento	Certificate
1	Ashoka Business School	MBA	1st,2nd,3rd, Consolation Prize.	4	4
2	Ashoka College of Education	B A. B. Ed.	1st,2nd,3rd, Consolation Prize.	4	4
3	Ashoka College of Education	B.Sc. B. Ed.	1st,2nd,3rd, Consolation Prize.	4	4
4	Ashoka Center for Business & Computer Studies.	BBA B. Com	1st,2nd,3rd, Consolation Prize. 1st,2nd,3rd,	4 3	4 3
5	Ashoka Center for Business & Computer Studies.	BBA CA	1st,2nd,3rd, Consolation Prize.	4	4
6	Ashoka Center for Business & Computer Studies.	B.Sc.	1st,2nd,3rd, Consolation Prize.	4	4
7	Ashoka Center for Business & Computer Studies.	M.Sc.	1st,2nd,3rd,	3	3
8	Ashoka International Centre for Educational Studies and Research	B. Ed.	1st,2nd,3rd, Consolation Prize.	4	4
	AEF-HE	Total		34	34

Tentative Budget:

SN	Particulars	Quantity	Rate	Amount
1	Certificates	200	15	3000
2	Trophies/Memento	34	200	6800
3	Prizes	34	250	8500
4	Judges Memento	10	250	2500
5	Remuneration for judges	10	2000	20000
6	Hospitality Expenses(10 External, 15 internal persons)	25	200	5000
7	For flex/decoration (Consolidated)			5000
8	Miscellaneous			1000
	Total in Rs.			**51800/-**

<p style="text-align:center"><u>Marking scheme for Best Student Research Project
Proposed Parameters</u></p>

Criterion I: Relevance of the Research Topic (25 marks)

- Title   05 marks
- Objectives & Contents   10 marks
- Significance/ Justification of the study   10 marks

Criterion II: Research Method (50 marks)

- Appropriateness of the method   10 marks
- Planning and execution of the project   10 marks
- Time schedule for the research work   05 marks
- Analysis and interpretation of results   25 marks

Criterion III: Application (15 marks)

    Societal/community/scientific/industrial application*   15 marks
    (* can vary from discipline to discipline)

Criterion IV: Attainment of objectives. (05 marks)   05 marks

Criterion IV: Future Scope for research. (05 marks)   05marks

<p style="text-align:right">----------------
100 marks</p>

Registration Form (Google Form)

PART – A
(To be filled by the Student Participants; One form to be filled for one project)

Name of the Student/s: 1. …………………………………………………

Approx. Budget of the project: ----------------------
Beneficiaries of this project: ---------------------

PART - B

(PROPOSED RESEARCH WORK FOR STUDENT RESEARCH SCHEME)
1. **Project Details:**

    1) Broad Area of Research
    2) Statement of Purpose 500 – 800 words
    3) Project Title
    4) Introduction
        a. Origin of the research problem
        b. Trans-disciplinary relevance
        c. Societal Relevance

    5) Relevance to Local/State/National Missions / Priorities

    6) Review of Research and Development in the Subject:

    7) Local/State/National/International (if any) status

    8) Significance of the study

    9) Objectives

    10) Methodology

    11) Month wise Plan of work

    12) Details of Collaboration with Government/ Industry/NGOs, if any intended

    13) Expected Output and Outcomes

2. Any other information which the investigator may like to give in support of project proposal which may be helpful in evaluating:

Student's Signature   **Supervisor's Signature**

STUDENT RESEARCH PROJECT SCHEME

Why Research Is Important For Students

INTRODUCTION

Today the educational world is adopting research as a core part of its curriculum. Research would be something that would enhance the conceptual knowledge of a faculty as well as a student by giving them a practical connect that directly contributes towards the growth of the society

IMPORTANCE BY NAAC

The educational accreditation board NAAC, has laid down the 7 criteria out of which one is research. This way research is gaining more and more importance as it is leading the educational world to a real world of learning, where the student or a faculty can search for more and more hidden facts and add on to the new knowledge creation for the coming generations to work on.

CONSTRUCTIVE STEP

According to the NAAC, institutes need to integrate education and research in various disciplines to sustain as centres of academic excellence. Three units of Ashoka Education Foundation have accredited by NAAC.
To comply with NAAC peer team recommendations from the first cycle in regards to student's research, AEF-HE initiated a constructive step towards designing "**STUDENT RESEARCH PROJECT SCHEME (SRPS)".**

DISTINCT FEATURE

Through this initiative, students would be encouraged and promoted to take a lead for innovative research project. This step will not only help to develop research culture among the students but will also be surely known as a distinct feature of the institutes under the umbrella of AEF-HE.

Objectives

Research Awareness	1.To create awareness of research among the students.
Research Culture	2. To make students well acquainted with importance and opportunities involved in the research work. 3. To inculcate the research culture in institutes and among the students.
Promote Innovation	4. To identify young talent, build capacity, promote innovation and support inter- disciplinary research in collaboration with faculties.

Scope of SRPS

Research is an essential component of higher education which helps in gain insights for creating new knowledge, imparts excitement in educational process and facilitates intellectual growth.

SRPS with a multi - disciplinary approach would bring the students from different areas together with the common purpose of evolving new theories, methodologies and frameworks.

SCOPE

It would create an appropriate research environment for the institutes of all four institutes of Ashoka Education Foundation- Higher education & its students & faculties.

This will promote an action-oriented research and high impact research amongst the students and faculties to focus on issues and problems having some social relevance.

SRPS schedule:

Sr. No.	Activity	Tentative Dates
1	Formation of core committee	23rd June 2021
2	Core Committee meeting.	25th June 2021
3	Orientation to faculties by core committee	3rd July 2021
4	Unit level meeting along with Director/Principal to discuss the guidelines and duties at personal level for an effective implementation of the program	5th July 2021
5	The process of and identification of the projects and allocation of the project supervisor	Till 25th July 2021
6	To conduct the workshops for the selected students	15th – 20th Aug 2021
7	Submission of the 1st progress report by the student participants.	Last week - 2021
8	Submission of the 2nd progress report by the student participants.	Last week - Oct 2021
9	The First round: presentations of the projects by the students working (AEF Panel)	Last week - Nov, 2021.
10	Shortlisting of the 10 projects from each department for the final round	Last week - Nov, 2021
11	The Final round: presentations of the projects by the students (External Panel)	Third week –Feb , 2022.
12	Prize Distribution Ceremony	Third week –Mar, 2022.

Note: Schedule is tentative and may deviate if statutory or university exams are there in between the schedule.

"Research is to see what everybody else has seen, and to think what nobody else has thought."

Expected Outcome/Benefits:

Research introduces you to new ideas, by engaging in the process of research, the students understand the concept in depth with practical understanding.

Research encourages you to find the most recent information available. In certain fields, especially scientific ones, there's always new information and discoveries being made.

Iteration is one of the keys to successful research. Researches usually do not end, the study goes on deep and deep.

Expanding knowledge and understanding of a chosen field outside the classroom.

Developing one-on-one connections with distinguished faculty in their field

FAQs on Project Presentations

Is there specific time given for presentation of project in final round ?

Usually (15-20 minutes) is given to present one project, but there could be instances when plus or minus five minutes will be given if time demands by panel.

How many maximum members can be there in one group?

There would be two or maximum three members in one project.

What is to be submitted once the project complete and to whom ?

You have to submit two hard copy and one soft copy to respective unit coordinator.

<u>INTRODUCTION</u>

- Enhance the conceptual knowledge of a faculty as well as a student by giving them a practical connect.

- Bringing research into teaching-learning methods has become the need of an hour.

- Having an in-depth analysis of the things

- Make learning fruitful and enrich the knowledge in one's area of interest.

- A never ending process, as knowledge has no limit.

- Research is gaining more and more importance as it is leading the educational world to a real world of learning.

- The student or a faculty can search for more and more hidden facts

WHY RESEARCH???

- The purpose of **educational research** is to expand the existing body of knowledge.

- Finds out solutions to different problems in pedagogy while improving **teaching** and learning practices.

- **Research** can find answers to things that are unknown by filling gaps in knowledge.

- The findings provide lessons students can take with them as they begin to lead organizations.

- With the help of research, wise decisions can be made to ensure business success.

BENEFITS

Enhances knowledge

Clarifies confusion

To learn about the methods and issues

Understand the published work

Learn to create a balance between collaborative and individual work

To know the interest

To know how the original study originated

Understanding the rationale

OBJECTIVES

1. To create awareness of research among the students

2. To make students well acquainted with importance and opportunities involved in the research work

3. To inculcate the research culture in institutes and among the students

4. To identify young talent, build capacity, promote innovation and support inter- disciplinary research in collaboration with faculties

Feedback/Reflection on "Student Research Project Scheme (SRPS)" as a Jury member
By
Dr Yogesh U Gaikwad

It was a great experience to be a Jury member for "**Student Research Project Scheme** (SRPS)" at "Ashoka Business School, Rane Nagar, Nashik-9" on 30th March 2022.

Learning is the continuous process therefore it is necessary to review the activity.

Following are some observations about SRPS :

- **Uniqueness in the Competition :**
  All the projects based on social themes. MBA Students worked on social projects.
  Social awareness is a crucial element of a management education. It enables a management student to consider the perspective of other people and understand their needs. This competition definitely helped management students in improving their research aptitude, social skills by interacting with people from diverse backgrounds. It is also helpful to create good human beings.
  I would like to appreciate Director sir, faculty members and mentor of ABS for assigning social theme for research projects.

- **Research Knowledge of the student in competition :**
  Students have prepared very good title, objectives, hypotheses, research methodology for research papers. Students have used advanced tools and techniques for analysing data.
  It is clearly observed that faculty members i.e. mentors of the groups have taken a lot of efforts to guide students, All faculty members i.e. mentors of group have developed proper research aptitude in student.

- **Presentation skills of students :**
  All the presenters are good. Communication, body language, and voice modulation of students were excellent.

- **Supportive arrangement for competition:**
  Support staff took care of all Supportive arrangements like seminar Hall, PA System, seating arrangement, LCD etc.

- **Points for betterment /scope for improvement:**
  01. Some more time should be given to students for data collection
  02. Papers should be published into reputed Journals
  03. Project Report or Research Papers can be shared with concerned statutory bodies/concerned authority like NMC.

SRPS- Way towards making difference in the field of Education through Research

It was pleasure to judge SRPS- Student Research Project Scheme at Ashoka International Centre for Educational Studies and Research on 31st March 2022.

When the Management is Visionary and team is efficient then we get excellent outcome in the education field which I experienced during presentations of researcher students.

Dr. Gujrathi Sir and Principal Dr. Santosh Rukari with their dynamic team are working towards excellence and giving better and better learning experiences to the students, Teacher training course makes all round development of student and when research culture is developed among future teachers that is the best education we can provide. This college is really giving their best to create future teachers in right way. The presentations of all students were excellent with confidence and well developed research skills. All students could satisfactorily answer all the questions by judges and their dedication and commitment was visible in their presentations.

I congratulate the Management, Principal, Staff and all students for developing this kind of research culture and making education field more vibrant and meaningful. These researchers can be sent to all stakeholders of education and with small efforts all these students can create huge difference.

Thanking you,

Dr. Sandhya M. Khedekar

Feedback of Juree Member

Students Research Project Scheme promoted Research Culture

I was happy to be part of Students Research Project Scheme as a Judge for student's research project presentation at Ashoka .The Quality of Education is depending on the initiatives taken by Institutions for Holistic Development of their students. Ashoka is consistently striving for raising the standards of Education.

I had observed that the students were confidant and fluent while presenting their projects, and they satisfactorily answered the questions regarding the research project.

Some projects are innovative and having good quality which has potential to be selected at Savitribai Phule Pune University Level Avishkar and Anveshan Research competition. So you can do further process to participate in said competitions. These research projects can be also sent for publication after checking plagiarism and content validation from Guides and experts.

I would like to suggest one thing that it will be better if you could motivate all Final year students for doing the research projects then there will be enrichment in knowledge of research and its application. Once again, I congratulate the Team of Ashoka for stepping ahead with their contribution in research field.

Thanking you.

Dr.Vaibhav G.Jadhav

Report of the Final Round of the Students Research Project Competition

Date: 06.5.2024

The final round of the student research project competition was held on 6th May 2024 in which 9 groups participated and presented their projects. All the projects revolved around social problems. The research project competition was judged by Dr. Sunil Joshi, Professor at Bhosala Military College, Nashik and Dr. Sapna Patil, Assistant Professor at J.D.C.Bytco I.M.S.R.

The students presented their titles, objectives, hypotheses, research methodologies, data analysis, findings and conclusion. The presentations were followed by questions and answers. Students tried their best to defend their work. At this time, suggestions were also given by the judge to improvise the projects.

The first position was taken by Ms. Janvi Punjabi who scored 37 marks out of 50. Her research was guided by Dr. Vaibhav Bhalerao. She presented on the topic "Temple Tourism: Analyzing visitor experience, Satisfaction and Addressing challenges in facility management".

The second position went to Ms. Meenal Amlekar and Mr. Swapnil Wani guided by Dr. Pooja Gholap. They scored 36 marks out of 50. Their title was "Digital Dilema: Exploring the influence of Social Media Apps and OTT Platforms on the sleeping patterns of Nashik Youths".

The third position went to Ms. Isha Pawar and Mr. Om Shah who scored 35.5 marks out of 50. They were guided by Ms. Pooja Kushare. They presented on the topic "Women's Perspectives on Utilizing Public Restrooms in Nashik city"

The presentations were attended by Dr. Sarita Dhawale – Director I/c ABS, Dr. Vaibhav Bhalerao – SRPS Coordinator and other faculty members.
