## **Student Satisfaction Survey**

Student Satisfaction Survey is conducted every year to know about the students' perception about Teaching – Learning and Evaluation, which will help to upgrade the quality of process followed in our institution.

47 Students responded to the survey.

In SSS there would be twenty-four questions all over and out of which, one question was on age, one on gender, and one question was on the course students studied. Twenty-one questions were objective type.

The questions were asked to understand the student's perception about overall teaching – learning experience in our institution.

The questionnaire covered a wide array of skills involved in the teaching process which vary from teaching skills of the teacher, technical knowledge, effectiveness of communication, preparedness, etc.
